HALO-LED[®] Whole Home Air Purification System

HALO LED[®] whole home in-duct air purifier uses our revolutionary REME-LED[®] technology to improve air quality throughout your air-conditioned spaces. Easily installed in new or existing air conditioning system ductwork, HALO LED[®] actively reduces airborne bacteria, viruses, odors, mold and allergens ensuring excellent indoor air quality throughout your home.

HALO LED[®], with new integrated airflow switch, is zero ozone certified and provides a longer product life with improved energy efficiency. A convenient Countdown Day Timer now offers visual indication for when it's time to replace your REME-LED[®] cell.

Why Use RGF's REME-LED® Technology?

HALO-LED® is the industry's first LED in-duct, whole home and building air purification system that is both mercury free and zero ozone compliant. HALO-LED® proactively treats the air-conditioned space, reducing airborne and surface contaminants and pollutants. By combining REME-LED® UV technology along with RGF's proven PHI-CELL® and bipolar ionization technologies, HALO-LED® provides revolutionary indoor air purification.
