RUDDY DUCTS: Air Duct Cleaning

Air ducts are most often overlooked as a cause to **allergies or sicknesses**.

The buildup of dust and dander in the air ducts is eventually pushed out into the air of your **home and lungs**. Don't keep suffering get your air ducts cleaned today by a **NADCA licensed company**.

We improve the well-being of others with **Safer and Smarter air!**

Quick facts about: **Air Duct Cleaning**

- The National Air Duct Cleaners Association (**NADCA**) recommends air duct cleaning every 2-3 years and inspected annually.
- Protect you, your home and HVAC system (**NADCA.com**)
- Dirty ducts contributes to allergies and respiratory problems. (**EPA.GOV**)
Air duct cleaning helps eliminate pet odors, paint fumes, moldy scents, and tobacco smells.
- Air duct cleaning enhances efficiency. Large dust and grime deposits may restrict airflow through your furnace and air conditioner. This means that your system will have to utilize more energy to regulate the climate throughout your space. Fortunately, with the assistance of our team, your air ducts remain clean and clear, leading to efficient functionality.

Whole Home Duct Cleaning

WHY GET THE AIR DUCTS CLEANED?

1. Improves airflow which saves energy.
2. If your ductwork has not been cleaned within 3yrs.
3. It is cheaper to clean the air ducts during a new install then waiting after.
4. Helps fight against asthma and other triggering allergies.
5. Helps remove unpleasant odors from house caused by rodents, insects, birds etc.
6. Improves overall systems stats of pressure performance which saves in energy.
7. Increases HVAC systems health.
8. Increases your health by eliminating harmful microbial growth.
9. Creates a pleasant atmosphere.

Ruddy Ducts meets **NADCA standards**

We understand what it takes to meet the **National Air Duct Cleaning Association** set of standards. This worldwide benchmark ensures you that we have the best equipment and use the best methods to perform any air duct cleaning.

Ruddy Ducts protects your Area

We take precautions to meet your expectations and protect your area during the cleaning

Ruddy Ducts takes: Before and After Pictures

This is the most satisfying part of our job! We document the entire cleaning and send you the results after.

Ruddy Ducts: How we will clean your ductwork

- **Residential Duct Cleaning**
- Active NADCA member: ID: 1218881
- ASCS, CVMR, CVI
- Let's Dive into How We Make Magic Happen:
- **1.) Pressure, Pressure, Pressure!**
 - We work our magic by placing your air ducts under a deep negative vacuum pressure, using advanced mechanical techniques. Our team covers the vents to enhance our negative pressure and control the dust. With our air blast nozzle combo and whip/ball attachment, we sweep the entire HVAC air duct ventilation system multiple times. We even create new temporary openings, following NADCA standards, for access panels and ensure zero leakage by sealing the edges.
- **2.) Upholding the NADCA code of Ethics:**
 - While our goal is a comprehensive 100% cleaning of all ductwork, certain areas may present challenges due to layout or installation constraints. Be assured, we will explore various NADCA approaches, including manual cleaning or suggesting new ductwork where necessary. Our adherence to the NADCA code of ethics guidelines ensures a hygienic and safe cleaning with proper engineering controls.
- **3.) Setting Expectations High:**
 - While we aim for a 100% cleaning of all ductwork, some locations may pose challenges due to layout or installation. Rest assured, we'll explore all options, including hand cleaning or recommending new ductwork where needed. We follow strict guidelines when venting vacuuming systems outdoors, ensuring a clean and safe environment.
- **4.) Cleanup Procedures Made Easy:**
 - After completing our work promptly, we suggest a little extra cleaning in your home. Why? Because we believe a thorough surface cleaning complements our service perfectly. While we focus on your ductwork, a little extra TLC around your home will make everything sparkle!
- **5.) Schedule Your Next Routine Cleaning with Us:**
 - According to NADCA, it's ideal to have your ductwork cleaned every 2-3 years. Let's keep your home fresh and cozy together!
- **Legal Notes Made Simple:**
 - Remember, Pennsylvania law may require the payment of use tax for taxable goods or services. Our services will be carried out with the utmost care and dedication. Duct cleaning enhances your HVAC performance. Our process does not damage any components since we isolate the system entirely from the cleaning. Once we finish our work, we are not liable for any pre-existing issues, lifestyle environmental choices or failing HVAC system or equipment. By moving forward, you acknowledge this statement and take responsibility for all any unrelated mechanical or equipment problems post our service.
